Merit Shop**

***59% of Americans believe
the American Dream
is unattainable...**

Let's Change That!

ABC PAC Political Action Committee

MISSION: Helping elect pro-free enterprise and merit shop candidates.

Why give to ABC PAC?

Unlike any other organization, ABC helps to elect officials who champion free enterprise and the merit shop philosophy.

ABC PAC leverages individual contributions to provide larger, strategic investments in candidates who support ABC ideals of open shop labor, free markets, and a level playing field. By pooling our resources, we can ensure a stronger, statewide strategy that elects candidates who will support our causes.

Will it make a difference?

YES - from \$100 to \$10,000, contributions of any size will make a difference. Most elections are decided by a very small percentage of undecided voters. When voters understand the benefits of the merit shop philosophy, they almost always support a pro-business candidate. By reaching out to even a small portion of the electorate, ABC can turn the tide in a number of key races.

Advancing the American Dream Fund

MISSION:

- 1) Educate the public about policies that support free enterprise and the merit shop philosophy.
- 2) Hold elected officials accountable.

America was built on a simple idea – that hard work and determination provides the path to a brighter future. But for millions, rising costs, overregulation, and out-of-touch politicians and government bureaucrats have made that bright future out of reach.

But you can help. Restore the dream of owning a business. Deliver the opportunity of homeownership. Hold a burdensome government and career politicians accountable to hard-working Pennsylvanians.

We believe the American Dream is alive and well – if the politicians would just get out of the way! By holding elected officials accountable and bulldozing barriers to success. The Advancing the American Dream Fund gets government out of the way, providing a level playing field for hard-working Americans to succeed once again.
