Judging and Awards

Judging

ABC Keystone's panel of volunteer judges represents a cross-section of the industry, including local design professionals and engineers. Projects are judged on execution of design, craftsmanship, safety, attention to detail, proper installation, evidence of extraordinary effort, owner satisfaction, and other considerations. Judges evaluate the projects based on submission and, if necessary, site visits.

An ABC Keystone member accounting firm designated by the Excellence in Construction Committee tabulates the completed forms. Decisions of the judges are final.

Awards

The Excellence Award, the top honor, is given to the highest scoring project in each category, provided the project earned at least 90 points. The Merit Award, second place, is given to all other projects that scored 80 or more points in each category. If none of the projects in a category scored 80 points or more, then an award will not be given. All other entrants earn a Certificate of Commendation.

- ◆ Being the only project in a category does NOT guarantee an award.
- ◆ A project must score **80 or more** points to be eligible for a **Merit Award**.
- ◆ A project must score **90 or more** points to be eligible for an **Excellence Award**.
- ◆ If more than one project scores **95 or higher**, then judges can award **up to TWO (2) Excellence Awards** per category. Scoring must be very close for this to occur.
