

SAFETY SUMMIT

Presented by

Nino Efendic

Owner & Lead Pilot, Aerial Prospex

With a passion for innovation and a relentless drive to push the boundaries of technology, Nino Efendic is a pioneering entrepreneur in the drone services industry. From a vision that started in his sophomore year of college, Alex has transformed his startup, Aerial Prospex, into a leading provider of cutting-edge drone solutions for the construction industry in Pennsylvania.

During his college years, Nino recognized the immense potential of drones in revolutionizing traditional construction practices. Armed with determination and entrepreneurial spirit, he founded Aerial Prospex to harness the power of drone technology to improve safety and efficiency on job sites.
