

SAFETY SUMMIT

Presented by

Tim Pote, Ph.D.

Co-founder & CEO of Element Exo

Tim Pote, Ph.D., is the co-founder and CEO of Element Exo, a company at the forefront of human exoskeleton technology with applications in industrial and commercial sectors. With nearly a decade of dedicated experience, Tim's expertise spans the engineering, research, design, and deployment of exoskeletons and wearable technology. He holds a Master's degree and a Ph.D. in Mechanical Engineering from Virginia Tech, where his work contributed to multiple published papers on the design, testing, and ethics of exoskeletons, earning him recognition in entrepreneurship and technological innovation.

Driven by a personal mission, Tim's journey into exoskeleton research began with the hope of aiding his younger brother, who is paralyzed from the waist down. This deep-rooted motivation has shaped his academic pursuits and guided his professional endeavors, aiming to bring life-changing technologies from the lab to the market, making a significant impact on lives across the globe.
